Experience

Mern Stack BootCamp

TechLift, PASHA & PSEB Jan 23 – Mar 23

Create an Ecommerce Site using React-JS, Redux & Bootstrap and also create backend using Node JS with Express-JS and MongoDB

React JS InternShip

Gamica Cloud Mar 22 – Dec 22

My experience at Gamica Cloud has allowed me to develop my skills as a React-JS developer and to work on a variety of exciting projects which is mentioned in project section.

Project

Personal PortFolio

Site: [abdullahtayyab](https://abdullahtayyab.github.io)

Ecommerce Site

Tools: Mern Technology & BootStrap

Developed an e-commerce website using React JS with a backend built with Node.js, Express.js, and MongoDB. Features include:

- User authentication and authorization
- Product catalog with categories and search functionality
- Shopping cart and checkout process

Expense Tracker App & To Do List

Tools: ReactJS, ContextAPI, MUI

Built an expense tracker & to do list application using React JS that allows users to track their expenses and manage their time. Features include:

- Add, edit, and delete
